

Firefighters Face Up To Disasters

Some disasters are more difficult to handle than ever before. The TFD has its personnel repeat training with the latest fire apparatus for the safety of Tokyo citizens.

Apartment building fire

Residential fire
(with 33 fire units in response)

Rescue after Typhoon no. 21 (with nine people saved)

Tsukiji outdoor market fire (for more than 11 hours)

Building fire (with 12 people saved)

Shibuya Center Street fire

Topic

Unified Task Forces

The members work efficiently and effectively, with great mobility apparatus, as the elite rescue professionals dealing with mass casualty incidents. They have been preparing for possible terrorism with the Olympic and Paralympic Games Tokyo 2020 approaching.

The UTF Command Units play a leadership role in coping with large-scale disasters. The Command Car provided with various communications devices is actually used as the base point for on-site operations. The vehicle makes disaster scene activities and on-site commanding as effective as possible.
