## AZABU FIRE STATION

### [Fire Prevention and Emergency Drill at the Embassy of Argentina]

We have conducted a fire prevention and disaster drill at the Embassy of Argentina on July 14<sup>th</sup>, 2021, with participation of the Ambassador and staff.

As part of the fire prevention training, they have experienced how to distinguish fire by discharging water from the fire hose. And during the emergency drill, the staffs had a practical training on how to operate the defibrillator (AED) as a first-aid training to help those experiencing cardiac arrest.
